Doyle Promoted To Regional Business Director

ICOR International, Inc., producer of Hot Shot®, Hot Shot-2™, One Shot-C®, and NU-22B® refrigerants, is pleased to announce the promotion of William "Bill" Doyle to Regional Business Director. Bill has been assigned to ICOR's West Coast region and will be providing ICOR distributors, and their refrigerant customers, with sales and technical support throughout his respective region.

Originally appointed in 2012 as Regional Director of ICOR's refrigerant reclamation services in the western half of the U.S., Bill brings to ICOR over 25 years of sales and sales management experience in HVACR industry. Originally from the Cleveland Ohio area, Bill

has lived in southern California since the mid 80's and his business travels have taken him throughout the western region. His new responsibilities will include development of our existing distributor base and working at the user level to pull business through the wholesale distributor channel. Bill is a member of the Orange County California chapter of ASHRAE and is pursuing additional HVACR associated credentials.

"As a result of the accelerated phase out of R-22, an estimated 30-35% of refrigerant users are transitioning to an HFC alternative like NU-22B" this year, said Gordon McKinney, ICOR's VP/COO. "Bill will be playing a key role in assisting distributors and refrigerant users in his region in their transition away from ozone depleting refrigerants. We are very pleased to have him on the ICOR team and he is making great progress in developing our business in the western states."

For a complete listing of ICOR's national and regional support personnel go to www.icorinternational.com/ICOR_Support_Map.pdf. ICOR International's offices and production facility is located in Indianapolis, Indiana. Business hours are from 7:30 am to 4:30 pm EST. for more information on ICOR products or to locate an ICOR products distributor in your area call (800) 497-6805 or go to: www.icorinternational.com
